

Left Leah at Track, right Leach at work.

Track to Success and Tractor Supply: A win-win

Leah loves going to work every day, something she couldn't say three months ago, when COVID left her wondering about her future. "I would go to MRCI every day," says Leah. "When they had to close I didn't know what I would do every day."

MRCI found a way to put meaning into Leah's day, she enrolled in the Track to Success program. Track to Success is an eight-week program that combines classroom instruction on soft skills such as communication and customer service, with on-the-job training at a variety of community work sites.

Leah did her on-the-job training at Tractor Supply in Mankato and after graduating from the course, interviewed for a permanent position there. She got the job on the spot!

"I love my job at Tractor Supply," says Leah. "When they got a shipment of little chicks in, I just knew it was the place for me!"

For Tractor Supply, it meant finding a quality employee in a tight market for work force. The partnership between MRCI and Tractor Supply is a rewarding one for all involved.

About MRCI

MRCI provides genuine opportunities for people with disabilities and disadvantages at home, at work and in the community. Please help us with that mission by volunteering of your time and talents! Please call 507-386-5600 to make a difference today!
